

# INDUSTRIAL RACK MOUNT INVERTERS

These pure Sinewave Inverters offer the ultimate in performance and reliability. They are available in a professional 19" rack enclosure with a wide range of options to suit individual applications.

## Options:

- AC transfer switch
- Voltage free alarm contacts
- AC Output voltage eg 110Vac
- DC Input voltages eg 32,36,74 etc.
- International power outlets
- Anderson Connectors
- Stackable for redundancy systems
- Psophonometric noise filter for sensitive telecom applications

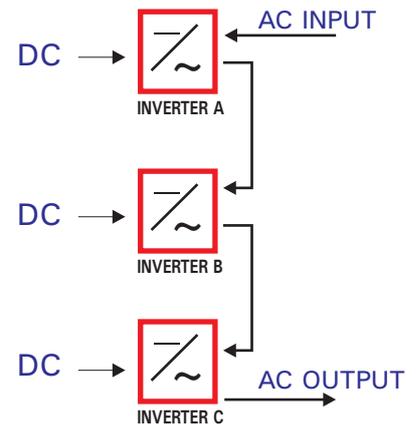

## Applications:

- Telecom Installations
- Power Utilities
- Railways
- Test Equipment
- Emergency Power
- Remote Locations

## Standard Features:

- Frequency 50/60Hz selectable
- Heavy duty DC battery leads
- AC/DC isolation
- Pure sine wave Output
- High surge rating for large inrush currents and motors
- High efficiency toroidal transformer
- Short circuit proof
- Full electronic overload protection
- Engineered and Manufactured in Australia
- DC circuit breakers
- LED status indicators

Mains backup with triple redundancy for critical applications
